

Cookie Statement

Visitors on our websites

Pareto Securities ("we" or "us") uses cookies, pixels and similar technologies (collectively referred to as "cookies") on our websites. This information page forms part of our Global Privacy Notice available on www.paretosec.com. It informs you on what cookies are, and how we use cookies on our websites and on our social media pages. This Cookie Statement applies for all our websites.

Cookies

A cookie is a small text file that a website stores on your computer or other devices when you visit the site. First party cookies are cookies set by the website you are visiting. Only the website can read them. In addition, a website might potentially use external services, which also set their own cookies, known as third-party cookies. Persistent cookies are cookies saved on your computer or other device and that are not deleted automatically when you quit your browser, unlike a session cookie, which is deleted when you quit your browser.

Pixels are image files (pixels) that trigger the use of a cookie after an event occurs. Pixels are used to connect you to third party websites.

Cookie Categories

We use cookies for the basic functions of our website, such as security and network management, and to enable you to log in to your user account (**necessary cookies**).

We use cookies to gain insight into user interaction on our websites through anonymous recording, statistics and reporting (**analytics cookies**). This entail counting the number of visitors and distinguishing between different visitors.

We use cookies to allow us to remember your previous visits from the same device, determining the beginning and the end of a visit, indicating where (at area or country level) the visitor comes from and distinguishing between different visitors (**personalisation cookies**).

We also use cookies to provide marketing on other sites or social media platforms that we believe is relevant for you based on certain parameters, such as data about your behaviour on our site (**advertising cookies**).

How long are cookies saved?

How long cookies are saved on your device can vary. The time when they are scheduled to expire is calculated from the last date you visited the website. When cookies expire, they are automatically deleted. You will find our list of cookies below.

Your consent

We use cookies based on your consent, with the exception of *necessary cookies*, which are used regardless of your consent. Your choices are further described in our pop-ups.

You may also change your cookie settings by the means described in the 'Help' section of your browser or by visiting aboutcookies.org. Please note, if you do not accept cookies, our websites may not function optimally.

Data protection

Normally, our use of cookies does not involve the processing of data that we may link to you as an identifiable individual.

Our legal basis for using cookies that contain personal information is GDPR article 6(1) (a): your consent, and/or GDPR article 6 (1) (f): our legitimate interest in offering our websites and customising your experience on our websites.

Pareto Securities on social media pages

In addition to our websites, we have pages on the following social media: Facebook, LinkedIn, Twitter, Instagram and YouTube. The social media providers transmit cookies to your device when you visit and use their services. You can read more about these social medias' use of information about you in their privacy policies.

From these social media providers, we are given access to aggregated data about visits to and activities on our pages. We use this for the purpose of statistics and analysis. This is not personal information to us, as we cannot link the aggregated data to individuals. We do not store this information ourselves, but have access to it as long as we have our social media pages. You may at any time delete information about yourself, e.g. by removing contents our reactions you have posted. Please note that your posts are not deleted just by you unfollowing our pages.

As administrators of our pages on the social media platforms, we are joint controllers with the relevant social media provider for processing of the data generated through such pages, such as data concerning likes and clicks and uploading of pictures and comments. For more information on how we process such personal data, please visit our Global Privacy Notice on the relevant social media page.

Changes to this Cookie Statement

This Cookie Statement was last updated on 26 June 2020.

This Cookie Statement may change from time to time. We will notify you by appropriate means if we make any changes of significance to you. You will always find the latest version of this Cookie Statement on our websites.
